

“Our Environmental Commitment”

AT POLYAIR, WE STRIVE TO INCORPORATE ENVIRONMENTAL SENSITIVITY INTO THE DESIGN OF OUR PRODUCTS AND OUR DAILY OPERATIONS.

MANY POLYAIR PRODUCTS ARE BOTH RECYCLABLE AND INCORPORATE RECYCLED MATERIALS IN THEIR PRODUCTION. WE REMAIN DEDICATED TO WORKING TOWARDS CREATING A CLEAN AND SAFE ENVIRONMENT FOR FUTURE GENERATIONS.

KEY ENVIRONMENTAL FEATURES

PRODUCT LINE

ENVIRONMENTAL CONCERNS

Durabubble^{RP}

Contains 10-15% recycled content
Made from 100% recyclable materials
No mixed materials such as Nylon

Starfoam & Lamifoam

Contains 15-20% recycled content
Made from 100% recyclable materials
All materials are CFC free

Xpak & Fastpak

Contains ~10% recycled content
Made from 100% recyclable materials

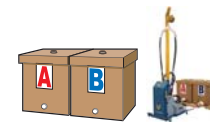

Air Space

Made from 100% recyclable materials

Vision
Foam-In-Place

Corrugated Chemical Containers
(ESDS) are 100% recyclable
(corrugate only)

HDPE - High Density Polyethylene

- Excellent resistance to most solvents
- Higher tensile strength vs. other forms of polyethylene
- Relatively stiff material with useful temperature capabilities

LDPE - Low Density Polyethylene

- Excellent resistance to acids, bases and vegetable oils
- Toughness, flexibility and relative transparency, good for heat seal applications
