fastpak

super strong courier bag

mailers

FASTPAK COURIER ENVELOPE FEATURES POLYETHYLENE WITH SUPERIOR TEAR AND PUNCTURE RESISTANCE. THE SILVER INNER LAYER PROVIDES DOCUMENT CONFIDENTIALITY AND THE WHITE OUTER SURFACE IS IDEAL FOR HIGH QUALITY PRINTING.

KEY FEATURES

FEATURES	ADVANTAGE	BENEFITS
White outer surface	Allows for excellent printability	High resolution color printing
Silver inner surface	Inside silver layer provides document security and confidentiality	Privacy is secured
High slip lining	Allows easier product insertion & extraction	Increases productivity
Hot-melt self-seal closure	Pressure sensitive adhesive provides a high strength tamper-evident closure	Content Security
Superior puncture resistance	Provides superior protection	Less damage during transit
Outstanding tear strength	No unwanted tears along the seam	Results in perfect delivery every time
Resistant to water and dirt	Documents do not get wet or dirty during delivery	Documents arrive clean and dry

Fastpak offers superior tear and puncture resistance while being extremely light weight. Thus providing outstanding security/tamper resistance and cost savings at the same time. All of this and up to 8 colour high definition printing capability.
