

POLYAIR

# lamifilm bag

high-performance poly-laminate

foam

LAMIFILM BAGS ARE A COMBINATION OF LAMINATED STARFOAM AND POLYETHYLENE FILM. LAMIFILM BAGS PROVIDE THE CONVENIENCE OF A POUCH, BUT REDUCE COSTS BY PUTTING STARFOAM PROTECTION ONLY WHERE IT IS NEEDED.

## KEY FEATURES

FEATURES	ADVANTAGE	BENEFITS
Custom sizes	Perfect product fit	Excellent product aesthetics
One side clear film	Reduced material where not needed	Cost savings
Non abrasive	Provides excellent surface protection	Will not scratch or damage finely finished surfaces
Lint and dust free	Will not mark or contaminate products	Can be safely used to protect highly sensitive products
Moisture repellent (closed cell construction)	Inert to water, grease and solvents (below 130° f)	Superior protection against moisture and grease

Lamifilm bags are moisture repellent (closed cell construction) providing superior protection against water, grease and solvents (below 130° f). They are custom sized to perfectly fit the product saving you time and money. The polyethylene film laminate adds rigidity and puncture resistance.

## TARGET MARKETS

Target markets include: Paintings, Artwork, Electronics, Automotive Injection molders.
