

POLYAIR

starbond

bonds to itself not the product

foam

STARBOND COHESIVE FOAM BONDS INSTANTLY TO ITSELF AND NOT TO THE PRODUCT. STARBOND FORMS TO UNUSUAL AND IRREGULAR SHAPES COMPLETELY ENVELOPING THE PRODUCT. MANUFACTURED WITH POLYETHYLENE FOAM AND COHESIVE FILM, STARBOND CAN BE REAPPLIED MANY TIMES.

KEY FEATURES

FEATURES

Made from low density polyethylene (ldpe)

Manufactured without the use of CFC's or HCFC's

Ease of application

Abrasion resistance

Covers entire product

No residue

Easy removal

Makes airtight pouch

ADVANTAGE

Highly flexible wrapping material

Environmentally friendly

Increased productivity

Eliminates surface damage

Complete surface protection

No clean up required

Saves on time

No exposed surfaces

BENEFITS

Gives diverse packaging alternatives for surface protection, interleaving and cushioning

The environment is protected by not using ozone depleting chemicals

Reduced labor cost

Reduced costs and damages

Eliminates damage

No additional labor cost

Reduced labor cost

Protects from dirt, grease and moisture

Starbond is highly flexible and perfect for surface protection, interleaving and cushioning. The abrasion resistant properties protects products from dirt, grease and moisture, leaving no exposed surfaces. Starbond leaves no residue, so it requires no clean up, reducing labor cost.

TARGET MARKETS

Target markets include: Pharmaceutical, Paint shops, Furniture, Jewelry, Exercise equipment.
