AIRSPACE

AirSpace Integration

The Polyair AirSpace program is more than just a machine and pillows.

AirSpace goes beyond just making an air pillow. It improves operations. Our unique, custom pillow delivery system integrated with your work stations takes costs out of your packaging process, improving labor and helping to ensure pillows are always available, delivered to where they can most conveniently be used.

AIRSPACE INTEGRATION

FEATURES

BENEFITS

Designed within existing distribution centre layout

→ No need to change existing packing stations or work areas

Strategically placed pillow openings

→ Easy pillow access helps increase productivity

Automatic machine start/stop

→ Ensures pillows will always be available

Hoppers can be positioned over conveyors and/or pack stations

→ Utilizes minimal floor space
