

POLYAIR sheeter

on-demand foam or bubble sheets

systems

POLYAIR'S SHEETER PROVIDES ON-DEMAND FOAM OR BUBBLE SHEETS IN CUSTOM SIZES TO DELIVER BIG SAVINGS ON INVENTORY, LABOR, FREIGHT AND MATERIAL AS WELL AS ELIMINATING LEAD TIMES ON CUSTOM SIZES.

KEY FEATURES

FEATURES	ADVANTAGE	BENEFITS
Uses standard roll stock	Fast delivery, lower material costs	Cost reduction, short lead times
Manual cut/feed/auto selector	Allows operator to choose which mode to operate in	Flexibility, labor savings
On Board Photo Sensor	Operate in continuous sheeting mode, when sheet is pulled away from the photo eye another sheet is dispensed	Labor savings, ease of operation
Batch Switch	Set a pre-determined number of sheets to cut	Ease of use, labor savings, increasing efficiency
Operator Input Touchpad	Allows for length and batch setting	One touch operation improves work environment
Emergency Stop Switch/built in Safety Switch	Safe operations	Safety

Sheeter uses standard roll stock so you get fast delivery and lower material costs. There is a batch switch so the operator can set a predetermined number of sheets to be cut. Sheeter also features up to 8 pre-set lengths allowing size changes instantly.
