

POLYAIR

STARBOND

COHESIVE FOAM CUSHIONING

Starbond cohesive foam bonds instantly to itself and not to the product. Starbond conforms to unusual and irregular shapes, completely enveloping the product. Manufactured with polyethylene foam and cohesive film, Starbond can be reapplied many times.

FEATURES & BENEFITS

- Cohesive film bonds to itself and not your product
- Film-based cohesive means no variability as with sprayed or rolled on cohesive
- Water-based film is safe for handling
- Reusable - can be used multiple times if kept clean of dust and dirt
- Stocked product - stocked in all Polyair plants in limited quantities for fast order turnaround

COMMON USES

- Wrapping of metal and wooden furniture
- Pouches on-demand
- Protection of fabricated metal products
