

POLYAIR

POLYAIR EMERALD®

BUBBLE PACKAGING WITH REDUCED PLASTIC CONTENT

Polyair Emerald® is a green tint polyethylene bubble that is acceptable for Store Drop-Off recycling programs. Utilizing 25% post consumer resin (PCR), this wrap offers high quality protection at an economical price and with less environmental impact. Polyair Emerald's green color makes it easily identifiable when compared to other traditional bubble products, and it stands out as an excellent choice for the environmentally conscious who are not willing compromise on quality.

FEATURES & BENEFITS

- **100% Polyethylene** - Product is recyclable because it does not contain nylon
- **Unique Green Color** - Supports sustainable qualities while still providing translucency
- **Excellent Air Retention** - Reliable protection through short cycle shipments
- **Tacky Film Surface** - Product does not move or slide during packing / shipping
